CHAPLINS DOMINATE BEAR SWAMP RUN

For many years, Mark Chaplin has been one of the top runners in central Vermont. His daughter, Tara, is following in his footsteps, as she is one of the top high school cross country and track runners in Vermont. On July 13, 1996, they had the opportunity to show their talents together, as they were the overall male and female winners of the 5.7 mile Bear Swamp Run in Middlesex. Mark, who also won last year's race and some of the previous editions of this 18th annual race, finished the course in 35:43. Less than a minute behind him, the battle for second place was closely contested among fellow masters runners, with John Valentine finishing 2 seconds ahead of Bob Morell and 8 seconds ahead of Tim Noonan. Tara Chaplin finished in 40:06, 25 seconds ahead of her U-32 cross country and track teammate Sarah Czok. 3rd place finisher, and top women masters runner, Johanne DeBoer was only 3 seconds behind Czok.

31 runners participated this year, an increase over last year. This race is perhaps most notable for its hills and rustic nature. It climbs 450 feet in the first 2 ½ miles, and then is flat or downhill for the remaining 3 plus miles. The high amount of rain this year, and a steady rain on the day of the race, led to slippery, muddy going for portions of the race.

Many thanks to race volunteers Sue Pryce, Michael Chernick, Jessica Chaplin and any others. Special thanks to Sue Pryce of the Middlesex Recreation Committee, who stepped forward this year to be the lead person for the Committee. She arranged to have the school open, participated in putting the mile markers and directional bear signs out on the course, set up the water stop and was at the finish line. Michael Chernick also deserves special credit, devoting his entire morning (beginning at 6:00 a.m.) to performing various race duties. This was the sixth year the Central Vermont Runners have sponsored the race along with the Middlesex Recreation Committee.

Hope to see you next year at this low-key, fun event!

Tim Noonan
Race Director

Berlin Pond 8K Couples' Race - August 4, 1996
Michael Chernick

An initially foggy Sunday morning quickly evolved into a bright sunny day that was meteorologically ideal for the 17th annual Berlin Pond 8K Couples' Race. Despite competition from the live televising of the Olympic men's marathon, a small, but enthusiastic, field of 23 runners, that featured some of central Vermont's sturdiest competitors, ran the dirt surfaced hilly and circular course.

Laura Medalie zoomed ahead at a speedy clip to lead the seven female open class competitors with a finishing time of 38:25. Moira Durnin speedily led the three master females finishing the course with the admirable time of 32:27. Keith Woodward dramatically outdistanced the entire field in stunningly winning the eight member male master class in a flat 28:00. Tom Kaiden led the 5 open class males methodically finishing the circumferal path in 29:10.

Berlin Pond is a unique event from a scoring perspective. While all participants are rated as individuals in their respective gender and age based classes, many runners are also paired as couples teams. This year the impressive 6 entries in the open (combined age under 80) class were led by the powerful performance of Dave Kissner and his teammate Laura Medalie whose team time was 70:08. A sentimental favorite open team of many race aficionados was comprised of the father and daughter combo of John and 17 year old Megan Valentine who, as a running duo, ran a respectable 73:19.

Amongst the four masters teams (combined age over 80) the winning pair was Tom Kaiden and Moira Durnin who set a combined pace of 61:37.

Corporate support, which enabled those great tee shirts from the presses of Porcupine Graphics in Bethel to be manufactured, was provided by the generous underwriting of the Central Vermont Medical Center. Doug Hill once again, and for the first time on a busy Sunday morning, graciously permitted the use of the Maplewood Convenience Store's parking lot and adjacent facilities as a staging and awards' presentation area.

The very novice race director approached this assignment with the expected degree of trepidation. His concerns were alleviated by the much appreciated help of Dave and Darragh Ellerson who magnificently supervised the finishing line duties and performed other essential tasks. The ever reliable Bob "Murph" Murphy expertly set the course assuring that the distances were genuine and USATFA certifiable. Most especially, Tim Noonan guided the director through the fundamentals of supervising a road race and provided crucial logistical support.

Congratulations Donna and Dot!

Donna Smyers and Dot Helling had outstanding performances in the recent Vermont Sun Earth Journey Triathlon

This article is reprinted from the September 25 issue of the Washington World

Local Women Complete Earth Journey

Donna Smyers of River-ton, and Dot Helling of Montpelier, completed the three-day Vermont Sun Earth Journey Triathlon, one of the six hardest triathlons in the world. Smyers and Helling finished second and fifth, respectively, in a field of nine finishers. Three of the finishers were women, all from Vermont, and all becoming the first North American women to complete this event. The event took place Sept. 13-15, in the Middle-bury and Lake Dunmore area.

Smyers completed the event with a total time of 25 hours and 35 minutes. She was second only to Steve Hare, the race director and defending champion, who finished in a time of 24:13. The event consisted of a 13-mile canoe or 5.5-mile swim and 95-mile road bike on day one, 168-mile road bike on day two, and a 51-mile run on day three. The biking and running included a series of climbs including Appalachian, Middle-bury and Brandon gaps. Helling capsized in the canoeing portion of the event and suffered hypothermia but struggled her way back to finish with a total time of 28 hours and 32 minutes, good for the masters championship.

The competitors battled

through a variety of adverse conditions including high seas, stiff headwinds, rain and cool temperatures. The event drew competitors from other countries. This was the fifth annual event. Helling and Smyers were both sponsored by Onion River Sports and Mad River Canoe also sponsored Helling in the canoe portion of the event. Smyers swam the first leg and clocked the fastest swim time amongst the competitors. Helling's canoeing fiasco placed her dead last at the start of the first biking segment.

The third woman finisher was Susan Olgivie from the Middlebury area. Olgivie is a teacher at the Ripton Elementary School and finished her first Earth Journey in a time of 33 hours and one minute. In addition to the three women and Steve Hare, there was a fifth Vermonter, Craig Wood of Plymouth, who finished in a time of 27 hours and 51 minutes for fourth place.
